

*Families welcome treatment with non-invasive oral appliances.*

**ema**<sup>®</sup> Elastic Mandibular Advancement

## SNORING AND SLEEP APNEA APPLIANCE

UPPER AND LOWER ACRYLIC SPLINTS WITH INTER-CHANGEABLE ELASTIC STRAPS OPEN THE BITE AND PERMIT THE ADJUSTMENT OF MANDIBULAR POSITION TO FIT THE PATIENT'S INDIVIDUAL NEEDS.

### EMA

**Elastic Mandibular Advancement Appliance** offers treatment of snoring and sleep apnea by re-opening the air flow through the oral pharynx.

- ▶ **NON-INVASIVE** – minimal bulk designed for maximum tongue space.
- ▶ **COMFORTABLE** – vacuformed thin clear acrylic splints and flexible elastic straps.
- ▶ **ADJUSTABLE** – select elastic straps from a variety of lengths and firmness.

#### ELASTIC STRAP SPECIFICATIONS
