

*Patients are delighted with the possibility of no surgery for their receded lower jaw!*

# HERBST®

## APPLIANCE

**BITE JUMPING HINGES REPOSITION THE MANDIBLE FORWARD TO ALLOW FOR THE ADAPTATION OF THE MUSCULAR, SKELETAL AND DENTAL COMPONENTS.**

## HERBST

Appliance offers predictable functional jaw orthopedics with control of patient cooperation using cantilever stainless steel crown or acrylic splint designs.

- ▶ **VERSATILE** – the wide range of appliance designs increase treatment applications.
- ▶ **COOPERATION** – minimal cooperation is required, resulting in predictable treatment.
- ▶ **RAPID CORRECTION** – 24 hour wear results in rapid improvement of Class II malocclusion.
- ▶ **FUNCTION** – the Herbst hinges allow for ease of eating, speech, cleaning and function.
- ▶ **DURABLE** – the new stainless steel crown and acrylic splint designs offer superior strength.
