

Patients enjoy the esthetics, comfort and durability of Valplast!

**Valplast**®

**FLEXIBLE PARTIAL DENTURES**

A CAST THERMO PLASTIC DENTURE THAT IS THIN, LIGHTWEIGHT AND FLEXIBLE WITH INVISIBLE CLASPS THAT SURROUND THE NATURAL TEETH.

**VALPLAST**

Flexible partials are a quality premium product that offer the benefits of superior esthetics, comfort, function and bio-compatibility.

- ▶ **ESTHETIC** – the translucent material blends naturally with the tissue tone and replaces clasps.
- ▶ **COMFORTABLE** – thin, lightweight and resilient with precision fit and retention.
- ▶ **BIO-COMPATIBLE** – non-allergenic, monomer and formaldehyde free.
- ▶ **FUNCTIONAL** – flexible to create a stress-breaker effect, with no minor or major connectors to collect food or affect speech.
