Medit *i*500

The easy entry into digital dentistry

Join us and learn about the Medit i500 scanner. Our program is designed to assist you in evaluating the i500 intraoral scanner and help you find the right scanner package!

What's to expect?

Presentation and Discussion:

- Medit i500 and Medit Link digital workflow, software tools and applications.
- Learn which Restorative solutions and Orthodontic applications are available for digital impression technology.
- See how 3D impressions are combined with existing laboratory technology to improve workflow, communication and clinical results.

Hands-on Scanning:

- Medit i500 with Medit Link live scanning.
- Scan in color with this high-speed, powderless system.
- See how digital intraoral impressions are processed and transmitted.
