

# Zirconia Framework *and e.max Ceramics*

# Zceram<sup>®</sup>

ceramic zirconia

## CROWNS AND BRIDGES

Our in-house, state of the art, Zceram system utilizes CAD/CAM manufacturing techniques to produce a dense sintered zirconia oxide framework layered with e.max ceramics. Experience the strength and beauty of Zceram restorations at PFM prices!

**ESTHETIC** - vital and translucent with no dark metal margins

**STRONG** - strength equal to a porcelain fused to metal crown

**BIO-COMPATIBLE** - one of the most bio-compatible ceramic materials

**CEMENTABLE** - cement conventionally with resin ionomer cements

**PROTEC**
