# Appliance Insurance

Should you wish to insure an orthodontic appliance, simply indicate this on the patient's prescription form. If you would like all of your appliances insured, please advise and we will register your account for automatic billing. Each registered appliance will be returned to you with a certificate and invoiced accordingly.

Removable orthodontic appliances will be registered with our replacement/repair program (initial fee) for a period of 1 or 2 years. For loss, irreparable damage, or repairs, the appliance will be processed for a reduced fee (deductible fee).

Please return proof of insurance (insurance certificate) with claims. The laboratory will require new models/impressions for all remakes and repairs (additional fees apply for pouring models).
